Note: Alabama Legislature Act No. 91-584 states that males between the ages of 18 and 26 who do not register for Selective Service cannot enroll in state institutions of higher learning.

Admissions Policies Regarding Placement Testing

In compliance with State Board of Education Policies, all students must take the compass placement test prior to enrolling in courses. Only students who are enrolling in four or fewer credit hours (or fewer than eight weekly contact hours) will be permitted to register prior to placement testing. These students must register in the Records Office at Wallace Drive Campus, McClellan Center, or Ayers Campus. After these students register for four credit hours, the system will block registration until appropriate placement testing is completed.

Each incoming student should take the COMPASS Placement Test before talking with an advisor or registering for classes. A complete application for admission must be on file in the Admissions Office before you will be permitted to take the placement test.

Documentation that may be provided to either Testing or Records in lieu of COMPASS placement testing includes:

1. Proof of a score of 480 or above on the SAT verbal and math within the past three years;
2. Proof of a score of 20 or above on the ACT English, reading, and math within the past three years;
3. Transcript for students who have an associate degree or higher;
4. Transcript for students who transfer degree-creditable college level English or mathematics courses with a grade of "C" or better;
5. Waiver for senior citizens, undeclared (personal enrichment), and other non-award seeking majors who are taking classes for avocational reasons only;
6. Waiver for students in certain short certificate programs having no English or mathematics requirements;
7. Transcript for students who have completed required developmental coursework at another Alabama College System institution within the last three years;
8. Audit students;
9. Documentation of assessment (COMPASS or ASSET) within the last three years;

10. Letter of Transience as required for transient students; Students who are enrolled in non-degree creditable courses must prove ability-to-benefit by obtaining appropriate COMPASS scores unless they provide an official high school transcript showing proof of graduation, official GED scores, or other documentation required by the State Board of Education to the Records Office prior to the end of the first term of enrollment.

COMPASS Placement Test

The computerized COMPASS assessment covers, math, reading, and English. Generally, it takes about two (2) hours to complete; however, it is not timed and you cannot fail. The scores are used to place the student into the appropriate level classes. To take a practice test, go to www.testprepreview.com; select COMPASS from the list on the left and review the materials. Additional sample questions can be found at www.act.org/compass. You may wish to bring your own calculator.

Testing Locations

The following locations offer the COMPASS placement test. Please contact the office of your choice for testing hours.

- Ayers Campus (Anniston) – 256.835.5411

Students who have completed coursework may retest up to an additional two (2) times as a requirement to apply for such a program.
