

Advisory Committee Meeting Minutes
May 10, 2007

Minutes taken by: Eric Campbell

On Thursday May the 10th the advisory committee for the Heating Ventilation and Air Conditioning (HVAC) department met to discuss both future and immediate needs of the HVAC industry. In attendance of the meeting were Tommy and Joseph Wade. Textbooks, workbooks, lab manuals, sample test and course syllabi were provided as an example of the program and its goals. A tour of the HVAC facility was also provided describing in detail the different types of work stations and equipment that are presently in the lab area. In open discussion Mr. Tommy Wade recommend that for the continually changing industry it would be great to see the program continue to get new equipment. Equipment that Mr. Wade spoke of was equipment that contains new types of refrigerant, higher SEER ratings, variable speed motors, and refrigeration needs such as a walk in cooler. In conclusion both Tommy and Joseph stated that the program seemed to be on good path and was happy to see it becoming an important part of the community.

MINUTES AIR CONDITIONING AND REFRIGERATION

June 25, 2007

Minutes to Craft Advisory Committee meeting for Air Conditioning and Refrigeration

The meeting was called to order at 11:00 a.m. on April 26, 2007. In attendance was Mr. Ernest Jolley (Holman Refrigeration), Mr. Tim Jones (Modern Heating and A/C), and Mr. David Clough (Wittichen Supply). The meeting began with a tour of the facilities. As the committee toured the lab I pointed out the new equipment that had been installed and purchased in the past year. The committee was very impressed with the improvements to the lab. The committee was impressed with the training that we now do with walk in coolers and freezers. Mr. Jones was glad to hear that we would be purchasing some sheet metal equipment in the near future. All members asked for more hands on training. I explained to them that we have been working in the field by doing service calls for students, faculty, and habitat for humanity. The meeting was adjourned at 11:45 were we then met at 12:00 for lunch at the east broad campus.
