

Bid 25-1918 Welding System
Questions and Answers

Question: Miller XMT 350 CC/CV Part Number (907161)-This is the machine only. It does not come with the welding lead and dinse connectors that go to the feeder. Nor does it come with a ground (work) lead and dinse connector. Do you guys already have this?

Answer: The incorrect part number was provided. The correct part number is 951786001 and replaces the previously provided part number (907161).

Question: Miller 20 Series Digital (951780001)_This package comes with a gun.

Answer: This item has been removed from the request for bid.

Question: Miller Drive Roll 1/16" U-Groove- U-Groove drive rolls are for soft or aluminum wires. Are these for the 20 Series Feeders? If not, can you please specify the feeder. The part number on the sheet is not a Miller part number.

Answer: The rolls are for soft wires.
